"Heart Condition"

Visit "[Heart Condition](#)" on MotoLyrics.com

fireworks the night that we were going
to meet tiffany
flashbulbs popped and all the stars
fell into the sea
or was it a river you were walking
single file with me
oh my goodness what a charming personality

heart condition, you give me a heart condition

my days are full and nights are planned but I just
want to be with you
let's go out and shoplift low top converse tennis shoes
hey I heard your favorite colors
are brown and baby blue
or I mean it when I say that this
brand new love is true

heart condition, you give me a heart condition

my head is in the clouds and I'm not even tall
you're the one for me, boy there's no doubt at all

heart condition, you give me a heart condition
