

The Softies "So Sad"

no one notices such a slow decline
I used to be yours and you used to be mine
you used to be mine
you used to be mine

you and me alone here
is just a memory

nothing grows here and nothing ever will
it all died a while ago but I wait here still
I wait here still

you and me alone here
is just a memory

I can't help you
and you can't help me
it's so sad
so sad

no one notices such a slow decline
I used to be yours and you used to be mine
you used to be mine
you used to be mine

you and me alone here
is just a memory
