I'm crazy for the sound of his voice
I think I found a boy who makes me smile
Let's hold hands for a while

Blue eyes like the sky
He makes me dream about a time
When maybe we could run away and hide
I'd always have him by my side

I'm thinking of his name
Over and over again
I'd like to see him soon
In the light of a shining moon

Blue eyes like the sky
He makes me dream about a time
When maybe we could run away and hide
I'd always have him by my side

I dreamed that he was here
A picture I hold dear
A kiss that might have been
Wait till I sleep, I'll kiss him then

Blue eyes like the sky
He makes me dream about a time
When maybe we could run away and hide
I'd always have him by my side

And if it's only in my head
This dream is worth all that he said
Saying everything I mean
I cherish that and everything

Cherish that and everything
