We would always just be friends  
To her that is what we would always be  
but that was not enough for me  
Why can?t she ever see

I love her why can?t she see  
One day I'll be on bended knee  
Is she blind ?  
Because I just signed my heart away

She goes out with all these guys  
Who all treat her like shit  
If she would just look at me  
She would have a hit

They say everything happens for a reason  
Well if she doesn?t see me soon  
I'm thinking about leaving  
Standing on my roof looking at the moon

I'd like to see her on my arm  
I would keep her out of harm  
When I see her on his arm  
I wanna cut it off

I would love her everyday  
and that is all I would say  
But all I do is stay at home and set  
Just sitting their having a smoke
