(Verse 1)

Never matters how fast I run  
I just can't escape time's gun  
The bullet's fired again and again  
Soon I'm sent back to before "we" began

(Chorus)

Tried so hard to reach you  
Rewind time, you ask "who?"  
Can't believe you don't remember me  
I look at you, you look at me, you can't see what I see

(Verse 2)

I used my last birthday wish on you, wishing you were mine  
I can easily remember us being up on cloud nine  
But now I'm falling (falling from the sky)  
I look at the time machine, "You made it all a lie!"

(Guitar Solo)

Maybe I had my chance and it passed me by  
"You made it all a lie"  
Well I guess time just slipped away (slipped away from me)

(Chorus) (2x)

(Bridge)

Yeah yeah, I know you would change things if it was up to you  
You don't know me like I know you  
And I've been where you'll never be  
We've been so in love, you just don't know it and never will. YOU NEVER WILL!

(Chorus) (2x)

Maybe I had my chance and it passed me by  
"You made it all a lie"  
Well I guess time just slipped away (slipped away from  
me) (2x)
