[Verse One]

When I'm with you I only feel completeness  
I can feel taste on my lips  
It's so hard to conceal the weakness caused by your  
fingertips  
If I told you just how deep my lovin' really goes for you  
And that you got all my trust  
If you knew tell me what would you do?

[Chorus]

All I ever wanna do is love you  
That's why I take the time to make it special  
Night after night  
Night after night  
Everything I have is yours only yours  
Nothing ever touched my soul like this before  
Feels so right  
Feels so right

[Verse Two]

Now if I told you that you're worth the world and all it's  
love to me  
If I told you that I wanna birth a family with you some  
day  
If I told you that I wanna grow old together what would  
you say?  
If I was to let you know I wanna see forever with you  
Would you run away?

[Repeat Chorus]

If I told you I wanna be your drive  
Your strength and courage when your weak  
I send my angels out every night to protect you from  
the street  
If you knew I'd sacrifice almost everything to keep you  
happy  
Would you let me love you for life  
It's all I want It's all I need

[Repeat Chorus Till Fade]
