Shrouded by the blackness inside  
Spiritual suicide  
Into sin we are born  
Filthy robes we adorn

To the fire we crawl  
Forever we do fall  
We don't think we need God  
Liars call Him a mythic fraud

The Advisory lies  
Break these, our Hell-bound ties  
Complacency, our major sin  
In this world we have to live in

Chain the fallen angel  
Untie the weed's tangle  
Turn to the Lord  
Run from the horde

Kill the Devil inside  
Break the chains and deny  
Let him burn and forever rot  
Let him die in battles you fought

When Judgment Day is here  
Let your conscience be clear  
Let the world hear and see  
That by Christ's blood, we are set free
