Take your time take all your time, baby
C'mon
Take your time take it anytime
Raise the line, raise the line every time
C'mon
Raise the line
Raise it above my mind

Everything that stains me and breaks me
Everything that breaks me and stains me
It's just a gut reaction trapped
In this aggressive action

I rise
Everything is right here color me unsold
Everything is right here inside

Take the pain wash it all away, baby
C'mon
Take the pain rip it all away
Take my hand take it anytime friend
C'mon
Take my hand take it anytime
Just like the king's men's nightmare
So low gotta see me to feel me
It's just a gut reaction
Trapped in this aggressive action

I rise
Everything is right here color me unsold
Everything is right here inside
Everything is right here color me unsold
Everything is right here inside
Inside
Trapped in this aggressive action
Inside
Trapped in this aggressive action
Inside
Trapped in this aggressive action
Inside
Trapped in this aggressive action
Inside

One two aggressive

Every time I give up somethin'
I end up with less than mine
Turn around and see what's given
It's still less than

Take your time take all your time, baby
C'mon
Take your time take it anytime
C'mon
Raise the line, raise the line every time
C'mon
Raise the line
Raise it above my mind
C'mon

Everything is right here color me unsold
Everything is right here inside
Everything is right here color me unsold
Everything is right here inside
Everything is right here [Incomprehensible] unsold
Everything is right here inside
Take your time take all your time baby
C'mon
Inside
Take your time take it anytime
Take your time take all your time baby
C'mon
Inside
Take your time take it anytime
C'mon
