My life is complicated  
I tried but it's too late an  
Just when i think that it's ok  
This place has overtaken

More and more than I'm here  
It's all fake, I can't tell  
I think i finally understand  
How i got this way

Every day I think that I'm Jaded  
More than I can admit  
In every way I think that I'm jaded

To all that I have hated  
I can't begin to state that  
In every way that I think  
My brain's activated

More and more than I'm here  
It's all fake, I can't tell  
I think i finally understand  
How i got this way

Every day I think that I'm Jaded  
More than I can admit  
In every way I think that I'm jaded

There is no way that I can turn back  
I see all things and it's crystal clear  
Living here is war on my life  
It has changed every piece of me

Every day I think that I'm Jaded  
More than I can admit  
In every way I think that I'm jaded
