"Threw It Away"

Visit "[Threw It Away](#)" on MotoLyrics.com

You had your chance, it's over, no more time
This is not even over, it blows my mind
Can't understand what's in your mind
I feel this deed within me, it's all inside
I sacrificed everything, now it's my time

Throw it away, you threw it away, it's gone forever

I don't know any other way to live my life
This is all I've ever wanted and it's mine
Can't understand your mind, I don't understand
Can't understand what's in your mind

Throw it away, you threw it away, it's gone forever
You had your chance, you're done, now it's in my grasp
He, who hesitates, is lost and now I've got the upper
hand

Throw it away, you threw it away, it's gone forever

You played that hand and folded, you let it go
I stepped in and kicked the door open, you can't stop
us now

Throw it away, you threw it away, it's gone forever
