[Ad Kapone]

People always askin ad rock where her beau been

I been docked in the cuts wit my pad and my pen

Creatin gangta flows just because the gangstas know

Its been a long hard road and I had a way to go

When I was young I was labled as a basket case

And every one walked by me got the gas face

And then I started getin taller and my started gowin

And people said I looked like a Samoan

But thats all right cuz it made all the girls stare

But some wouldn't talk cuz my hair was longer than theirs

I got a curl and they tease me bout the drip drip

But I kept it banging so I didn't even trip

People always wanna talk down on the under man

But I had self respect so I kept the upper hand

And because all the girls was biting...

That's what kept kapone always fighting

Jealous punks will sweat you over spilt milk

And try to plex and that's what gets brothers killed

See I don't care about another gold on his grip

That don't phase me, man I don't even trip

[Background chorus]

I aint tripping no more it really aint worth my time

so just caution all I kick them back and wrote you all a rhyme

[Ad Kapone]

My momma always told me it was gonna be days like this

Where your name is gonna be on somebody's list

But don't drip off the perk and janx

And to the ones that was that was really down give em' thanx

Lesson 3 no don't change yours for nobody

It's funny what some people would do for money

As I was growing up I had a lot of stepping stones

Never lonely had my older brother rey bones

Back at ravens wood man them was the old days

Doing assemblies and talent shows in P. A

I remember coming up with the K.O.D

The kings of death man we was bout 12 deep

Doc Luc, Chung, Mac 10, and I.C.D

Glenny Glen, Brucy B, Spice D, and Me

Tiny t, and the E all old schoolers

When it came down to rap man we was the rulers

Then everybody moved away and i was alone

then I realized it was up to kapone

To keep the group alive even by myself G

Then doc luc came back it came reality
Me and doc rocked shows and brought the house down
Then we made them O's and shopped them around
No one discovered us but we still rocked on
We bumped and kept all the crowds pumped
Like the talent show at Menlo and county park
I think that's what lit up my first spark
We was rocking and the scouts were recruiting
It was cool till dumb brothers started shooting
It was drama and it raised up a lot of fuss
And after all that they blamed it on us
But the media hype wont keep me down
I control that my behavior is on the crowd
I don't understand why they come with that shit
I'm only Ad man I don't even trip
