I play the game of piercing fear. Is this the only sound
I'll ever hear?
Of hate I'll rise of this perennial demise!
Well if I ever should fall from this earth...
Would there be anything left of me?

Come feel the need of piercing steel penetrating your
hope!
We suffer, yes we suffer... in this pit of hell
The pulsating hatelights who will deform?
Total devastation just catches your eye!
Take a trip inside of me! there's all I need!
Of hate I'll rise of this perennial demise!
Cause we've cried bloodstained walls on every fucking
side!

Come feel the need of piercng steel penetrating your
hope!

Kill kill machinegun majesty!
Just steal steal come steal my night

The nights are long as well as the war
They pull my strings whenever they want a feelings just
reach us
A feeling of insecurity of strength i'll rise of this
miserable disguise
Repeat Chorus
Repeat First Verse

Kill kill machine gun majesty just spill spill come spill
our blood
Kill kill machinegun majesty just steal steal forever
stealing my life!
