Inside you, I feel you from inside, satisfaction built on
sin
Condamn everything who says what is wrong
Drown in my eyes, no need to deny I scream!
Feel my devil inside you, gaining!
Reaching diabolic speed!

I reach, I feel you're lost
Millions of flames in your eyes

I command the gods of time
Make this dream never end
Imagination?
Evil salvation?
Red light city makes you burn Oceans of immortal
speed
I'm the hand sweeping over midnights land

...So sell your soul and be mine!

I decide if you will rise
Total control! I'm in your veins
I reach, I grip your mind
Never surrender
