Straight forward on the path of life, Who makes you
choose
That way Is it a crime to give it all up, To leave it all
behind
Oh...this is all so crystal clear Going on in shallow
blindness
To watch the madmen sort things out No time to
spill, Isn't
It such a thrill? By self-deception I am bound to take it
Seriously I'm way beyond, I've put myself in such
horrible
Way to go

[Chorus x 2]

I think you just made a big mistake... This is just a fake
cause
I am, Guilty by association, sinner of mankind, I'm forced
to
Build my life upon this, hidden path I just can't find.

Well...is this all so crystal clear?
Sometimes it seems like time stands still Demolish
myself at
Free will, Can you watch me burn As the sun goes down
and
My life is overturned, Can I identify myself with the
Judgement that I'm facing here Can't deny, won't deny
that
I'm level with the ground by fear

[Chorus]

Punished and banished I kill the ways of life You predict
and
Restrict my views in the hands of time

[Chorus]

You wear the face of desperate man displacing his
fatal
Actions Refuse to recall the miserable times of stupid
and

Naive attractions Going on in shallow blindness To
watch
The madmen sort things out No time to spill, Isn't it
such a
Thrill? By self-deception I am bound to take it seriously
I'm
Way beyond, I've put myself in such a horrible way to go

[Chorus]

I think you just made a big mistake...This
conversation's over
The analyst may have won this case of, discrimination
and
Nothing but lies, This fallen era makes me wonder, Is it
worth
It when your dignity dies
