Let's die tonight you know I'm right  
I've got the feeling strong enough  
to break 10,000 souls apart  
I'm injecting my life into your veins  
no experience to strong this pain!  
pain in life cuts like a knife  
open the book of empty pages  
what do you see?

Chorus: I'm the master of pain  
waiting in vain  
my pride is slain  
watch me die during a sadistic lullabye!

A gathering of long lost souls  
are carrying my memories written in the name of pain

I love to hear thier veins screaming for more  
vengeance is the law exploding music  
you can't catch time, it doesn't exist  
life's a sculpture that can't resist!

Chorus: I'm the master of pain  
waiting in vain  
my pride is slain  
watch me die during a sadistic lullabye!

Engaged with destiny my life is yours  
but you don't know me  
we bleed together  
like an ever flowing stream  
with souls so black oh so empty!

Sadistic Lullabye!!
