Straight forward on the path of life, Who makes you  
choose  
that way Is it a crime to give it all up, To leave it all  
behind  
Oh...this is all so crystal clear Going on in shallow  
blindness  
To watch the madmen sort things out No time to  
spill, Isn't  
it such a thrill? By self-deception I am bound to take it  
seriously I'm way beyond, I've put myself in such  
horrible  
way to go

[Chorus x 2]

I think you just made a big mistake... This is just a fake  
cause  
I am, Guilty by association, sinner of mankind, I'm forced  
to  
build my life upon this, hidden path I just can't find.

Well...is this all so crystal clear?  
Sometimes it seems like time stands still Demolish  
myself at  
free will, Can you watch me burn As the sun goes down  
and  
my life is overturned, Can I identify myself with the  
judgement that I'm facing here Can't deny, won't deny  
that

I'm level with the ground by fear

[Chorus]

Punished and banished I kill the ways of life You predict  
and  
restrict my views in the hands of time

[Chorus]

You wear the face of desperate man displacing his  
fatal  
actions Refuse to recall the miserable times of stupid  
and

naive attractions Going on in shallow blindness To  
watch  
the madmen sort things out No time to spill, Isn't it such  
a  
thrill? By self-deception I am bound to take it seriously  
I'm  
way beyond, I've put myself in such a horrible way to go

[Chorus]

I think you just made a big mistake...This  
conversation's over  
The analyst may have won this case of, discrimination  
and  
nothing but lies, This fallen era makes me wonder, Is it  
worth  
it when your dignity dies
