"Holding On To You"

Now we are together and
My world I give to you with open hands
I am for you to command
Your every wish
Your every kiss

My heart is all too fragile
My love will go on for the mile
I am for you to command
Your every desire
Fueling the fire

[Chorus]
I would cry
Holding on to you tight
Forgive and forget all the rough times
Never knew that we couldn't make it through
But now it's true and I'm holding on to you
Yes I'm holding on to you

As time has slowly pass by
I still see the love burning inside
I am for you to command
Whatever may come
We'll make it through

Repeat Chorus

Holding on to you
Your every wish
Your every kiss
Your every desire
Fueling the fire

Repeat Chorus

Yes I'm holding on to you
I'm holding on to you
