The rain will continue to fall
As I stand on the edge
And watch it all go down the drain
So when you leave me goodbye
Don't you dare ask me why
Cause my sanity's gone and I've stayed here too long
I've got to move on and leave you behind

So just throw all your lies away
And leave me for dead I say
Just take with you all this pain
And make your way

[Chorus]
Out the door
Out the door
Your not needed anymore
So just make your own way
Out the door
Out the door
I don't care anymore
So just make your own way out the door

Oh at first how I plead you to stay
Well that was my mistake
I will surely never make again
This twisted fate we're in
I have thought you were the one
But turns out all along I was alone
I have fallen apart
So confused in the dark for too long

So just throw all your lies away
And leave me for dead I say
Just take with you all this pain
And make your way

Repeat Chorus

All of the times that we shared
You seemed to never have cared

Tonight is the night and I'm leaving you good for this
time

So just throw all your lies away
And leave me for dead I say
Just take with you all this pain
And make your way

Repeat Chorus
