Champagne Chronic Nightcap

Give me some of that ChampagneChronicNightCap,  
baby

ChampagneChronicNightCap, baby

Give me some of that grown love, grown stuff

All we need is a lighter tonight

I want some of that grown love, grown stuff

All we need is a lighter tonight

Ain't No reason that these walls ain't enough for us

Let's stay in and let the house do the talking to us

I don't wanna fill out a crowd, yeah

I don't really wanna step right out

I know how to get down in my own damn house

If you know, if you know what I'm talkin' about

Talkin' bout' ChampagneChronicNightCap, baby

Give me that ChampagneChronicNightCap, baby

Give me some of that grown love, grown stuff

All we need is a lighter tonight

I want some of that grown love, grown stuff

All we need is a lighter tonight

Aint no call but it falls on occasion

Ain't no why but the class never heard no one

Why don't we go down and drive

You love that conversation

I know how to get down in my own damn house

If you know, if you know what I'm talkin' about

Talkin' bout' ChampagneChronicNightCap, baby

Give me that ChampagneChronicNightCap, baby

Give me some of that grown love, grown stuff

All we need is a lighter tonight

I want some of that grown love, grown stuff

All we need is a lighter tonight

My shovel gets me to your level, cuz I dig ya

Eyes stevie wonder ponder think figure

Dream a few daily, vibe while I kid ya  
I rather practice makin a kid but I'm full to the lid  
Maybe baby but I dig ya, Carter creates chemistry  
With charisma now maybe it's the chronic we twisted  
See we can get high, oh we get stuck  
Now do you, you got that ooh, ooh  
Swisha sweet make me wanna L-I-Q-U-R  
No bar we can talk about the war  
What's right and wrong, cry and write a song  
And that's so hard I can make tonight so good  
You wouldn't wanna see tomorrow  
Your chief

Me and You and some good ooh, ooh  
Me and You and some good ooh, ooh

Thanks to erica
