You you got one of it by it
The earth moves my heart
We got a plan of lifetime
But don't know where it starts ake a step happy... stop
at all
... comes to life you never blow down to get me tonight
Don't let me say goodbye
You never get too far
I was being here waiting
You never call
... around in circles
You never get to fall
You never do slow down
I am moving too fast
You always do

You never get too far
I was thinking waiting
On the left side drive
... secret lover
And do it in
You you are gonna say confusion
Don't know what's...
Comes to life
You seem like heaven from distance
And I can't learn to say goodbye
... I was being here waiting
You never call
You drive around in circles
You never get to fall
You never do slow down
I am moving too fast
You always do
You never call
... around in circles
You never get to fall
You never do slow down
I am moving too fast
You always do
You never get too far
I was thinking waiting

On the left side drive
You never get too far
I was thinking waiting
On the left side drive
