(feat. Q-Tip)

Who would've known  
The rain and the sunshine  
Would Baby Baby  
Feel up these walls of mine  
And I can't see you or breathe you  
Cause there's trouble right beneath  
It's all in the night  
But oh baby baby  
Come pick me up in your ride

I'm a cool low Jane  
With a skip on my feet  
I play tough as nails  
With my heart on my sleeve  
Nothing but a sandcastle  
Baby don't blow me away

Baby I know you do that to all the girls  
Know that I'm fragile  
Bay ba ba babe baby  
Don't blow me away

Baby I know you do that to all the girls  
Know that I'm fragile  
Bay ba ba babe baby  
Don't blow me away

Who would've known?  
The storm of my past time  
Would baby make me?  
Losing the song of the eye

And I can't believe you or read you  
Cause the pleasure in your preview  
It's all in your eyes  
Oh Mr. Dj baby can you meet me out side

You're a old school dude  
With a kick on your shoes

You got crews and your handles  
When you spin those tunes  
Nothing but a sand castle  
Baby don't blow away

Baby I know you do that to all the girls  
Know that I'm fragile  
Bay ba ba babe baby  
Don't blow me away

Baby I know you do that to all the girls  
Know that I'm fragile  
Bay ba ba babe baby  
Don't blow me away

Oh and just like the ocean  
Lays right there behind me  
Look over my sandcastle  
And there's a sight to see  
Don't blow me away  
Don't blow me baby

Baby I know you do that to all the girls  
Know that I'm fragile  
Bay ba ba babe baby  
Don't blow me away

Baby I know you do that to all the girls  
Know that I'm fragile  
Bay ba ba babe baby  
Don't blow me away
