Chorus We love our enemies as our friends, InI will forgive
them but I don't forget We love our enemies as or
friends But will never turn my back on them v.1
Children of the Most High God Children of the Earth
and
this fullness thereof Let us not do as them wicked have
done, for InI will feel retribution What a man giveth
is what a man receiveth and what a man receive for his
giving is more breath The wages of sin is death
fighting only destroys love, and I am not impressed
Chorus v.2 War is the same everytime Both
sides claim to be divine, When both sides from the
same
design. We are one creation from the mastermind
Corruption and sin present on all sides, and both
sides claim they have the birth right Newspaper shows
the
pictures, and you look the same to me And I know
that's what Almighty Rastafari see Chorus
v.3 Enemies will be there to hem InI up, and get
in my hair Never mind iniquity cause they're so unfair
What's going is coming and we see that clear Do
you want to be just like them, blend with hooligans and
mix
with evil men When they strike, you strike back, again
and
again And soon, you gonna be just like them
