You turn my mind and soul
With cold and frigid stains
Please let go your prayers and hopes, cause I won't
fucking stay
Oh, high tides, you are pulling me away

This is not over yet, how could you ever think I would
break my stride
Behind everything, I know where you've been, so don't
act like you're
Divine

Tomorrow will be the same
Because you have nothing to believe in
Can you even make a difference? Can you even make a
slight change?

Try to figure out, try to figure out
Do you stand tall now, do you feel beloved?
Try to figure out, try to figure out
Do you stand tall now, do you feel beloved?

I hate to say it but you do not have the nerves
To admit the shame we both know you deserve
I always knew, I always knew
Your yesterday is on repeat and now you think you can
just change without a
Trace

You had nothing, you had nothing to believe in
You had nothing, you had nothing to believe in

You paint the walls with fear and blood
Injections kills the life, you once had in my eyes
You died so long ago in my heart
You died so long ago
You were already dead to me

Fuck you and fuck your needles

You are disgusting
