(M.Martin/K.Lundin)

Remember when we said goodbye

To give each other time

We said that we should live apart

Only for a while

Now it feels like it's all I waited for

Chorus:

To love once again, I'd do

anything, oh yeah

But I know that we can make it
last forever

I may be lost

I may be blind but I am not a child

I know that we can make it

right if only for a while

It's not that easy please believe me

I don't wanna let you go

Chorus

To love once again I'd do

anything, oh yeah

And I hope the time will come,
when we will find peace of mind

Now I'm waiting for a sign that

leads me closer to love again

To love once again

Chorus (2x)

To love once again, I'd do

anything, oh yeah

And I hope the time will come,
when we will find peace of mind
