Again i'm dreaming of you
I pull you close to feel you breathe
and your laughter echos in my head
when i wake it fades to silence..

there's a thousand miles between us
and a thousand days
but i can feel you
i can still feel you against my skin
and the nights are cold and lonely
but you keep me warm
cause i can feel you i can still feel you.

our love was uninvited
it came too fast it grew too strong
i was getting soft and you turned cold
and the laughter turned to silence.

there's a thousand miles between us
and a thousand days
but i can feel you
i can still feel you against my skin.
And the nights are cold and lonely
but you keep me warm
cause i can feel you i can still feel you.

against my skin
against my skin (against my skin)
where ever you are
where ever you go
you always around me
no matter how far
you are always around me.

there's a thousand miles between us
and a thousand days
but i can feel you
i can still feel you against my skin.
And the nights are cold and lonely
but you keep me warm
cause i can feel you i can still feel you.

against my skin
still you keep me warm
cause i can feel you
i can still feel you
against my skin.
