So here's my world
In the light of a candle
You give me more
Than I thought I could handle

Bless you my dear
For giving me pleasure
Out of this world
Let's stay here forever

Now you scream
But you voice is tender
I see your face
You're in bloom, I surrender

Bless you my dear
For giving me pleasure
Out of this world
Let's stay here forever

So far away from the worries and the pain
So far away

Bless you my dear
For giving me, for giving me
Out of this world
Let's stay here forever
Stay here forever
Stay here forever
Bless you my dear
For giving me pleasure
