Saviour self. Self saviour. You've got to become brave to save - your blood, my blood. Makes me harder to heal.

How do the ones you love, become what you loathe? Because the feeling is mutual, since you've lost respect for it. Only you will witness its contempt.

Cos its all relative. Why must I live my life by your strife? Cos its all relative, don't be so negative.

Strangled by my eternal ties - choke. I wish I could stand by you, yet you left me weak at the knees, so i guess the time has come, now you're on your own.

Never knew your intent meant, no father figure. So much, so dear, to fear, to save yourself.

Cos its all relative. Why must I live my life by your strife? Cos its all relative.

If it's in you, it won't be in me. Why has it made you blind to see? Well all I can do, is make sure, I'll never be like you. I'll never fuckin be like you. Never ever.
