I was born a year ago
No one knows what it's like to be one, come on
I was born two years ago
No one knows what it's like to be two but you
You were born three years ago
No one knows what it's like to be three but me

I was born four years ago
No one knows what it's like to four for sure
I was born five years ago
No one knows what it's like to be five but I

Got a clue
So, so do you

I was born a year ago
No one knows what it's like to be one come on
I was born two years ago
No one knows what it's like to be two but you
You were born three years ago
No one knows what it's like to be three but me
