"Where Did John Lennon Go?"

Tell me where did John Lennon go
He left us too soon
Is he having a party with the man in the moon
Is it tea time where he is or just before noon
Tell me where did John Lennon go
He left us too soon

And where did the future go?
It left us too soon
I've heard it on records
I've seen the cartoons
Is it inspected, dissected and collected in jars
And put neatly with labels on a mountain on Mars

And where did John Lennon go?
He left us behind
Did he leave us a letter with his regards kind
Saying "just walk your own way as I'm walking mine
'Cause you'll see something new if you won't pass it by"

And where did John Lennon go
His wife is just outside
Tell me where did he go to and where does he hide
'Cause we might want to see him
I know I have tried
Even ???
