With every heartbeat I beat  
I beat two times for you

You make it so hard for me, baby  
(Sometimes) sometimes  
I don't understand  
What you really want from me

(Sometimes) but whatever it is  
As long as you love me  
Like you love me right now  
You can have it

(I know) there's something about you  
That just makes me (right now)  
Feel good all over

It ain't the color of your hair  
It ain't the pretty clothes you wear  
It ain't the color of your eyes  
But, baby, there's something  
More tantalizing

When I picture you in front of me  
Just the way it always should be  
Nothing but you, you and your baby blues  
Did you hear me, baby

Oh, girl, you make my lips feel warm  
There's something about you  
I can't live without you  
Come let me love you  
Tell you all about it

Ooh, baby, no one else  
Could ever take your place  
Picture you in every mirror  
That has your face

God knows the world  
Should know it's true

My favorite colors are you  
And your baby blues, oh

Oh, baby, take off  
Everything you choose  
But your baby blues

I like it, I like it  
I like it, I like it, I like it
