After all we have been through
I enjoy spending time with you
Although things are not perfect
You are the only one for me
I like your style and your smile
Lets be together for a while
A long time coming with you
With you is where I'll be
Girl, I like being with you so much
We will always stay in touch
Girl, you are so much the one for me that

I can't even talk about it
Talk about it, talk about it
I can't even talk about it
Talk about it, talk about it
I can't even talk about it
Talk about it, talk about it

When I am away from you
I think of you all of the time
When we are together again
Those moments with you never end
Enjoying every minute with you
Making memories come true again
Every moment with you is a holiday
We're always thinking of nice things to say
Only good comes when we're together
It's like a vacation in warm weather
Lets stay on this vacation forever, so good that

I can't even talk about it
Talk about it, talk about it
I can't even talk about it
Talk about it, talk about it
I can't even talk about it
Talk about it, talk about it
