You and I, we've been together for a while
I was really digging your style
I really liked your smile
It wasn't long that we were meant to be
But somehow things didn't turn out right
Oh how I wish we can make things right
Dinner with you and we can talk about this tonight
We got to keep trying, trying to make this work
But everytime I come around it's like

Fire, fire, fire
Now I see why you don't talk to me
It's like fire, fire, fire
Can't take too much more of this, got to let it be
Everytime I come around it's like
Fire, fire, fire

I've put a lot of work in you, there's nothing left to do
I've tried keeping you, but there's too much looking up
to
I thought things would get better, but there's too much
to put into you
Maybe we should part and go our seperate ways
I see no use in this, There's no need to stay
Let's just call this tonight and be on our way
I see no other reason why I should stay
Just see you one last time and call it the day
Our last day together because it's like

Fire, fire, fire
Now I see why you don't talk to me
It's like fire, fire, fire
Can't take much more of this, got to let it be
Everytime I come around it's like
Fire, fire, fire
