Come on over here, girl  
I wanna get to know you better  
Come to me, girl  
It's going to get, wetter  
Things are getting right  
We're going to be trend setters  
That's the plan for tonight  
I promise to be a go getter  
I will do you right

I wanna rock your body  
I wanna rock your body  
Come on in the room  
Come on in the room

I wanna rock your body  
I wanna rock your body  
Come on in the room  
Come on in the room

Let's rock tonight, girl  
It's just you and me tonight, girl  
Bring your body here, girl  
Your body's ringing right, tonight  
You are here with me, how nice  
It's gonna be low key, here with me  
That's how it's gonna be  
When I'm with you, low key  
I will rock you, tonight

I wanna rock your body  
I wanna rock your body  
Come on in the room  
Come on in the room

I wanna rock your body  
I wanna rock your body  
Come on in the room  
Come on in the room
