There's a time, in your life
When you need someone to hold
And everybody's shoulder's cold

When things, are not perfect
And you have no one to blame
And everything is not the same

You know that you, make it hapeen
No matter what you're going through
Cause baby I'm still in love with you
You, make it happen
No matter what you're going through
There's nothing else I'll rather do

When you meet, that someone
We will celebrate tonight
And everything will be alright

And when you have, the real time to
Make them your special friend
There's no other way to comprehend

Cause you, make it happen
No matter what you're going through
Cause baby I'm still in love with you
You, make it happen
No matter what you're going through
There's nothing else I'll rather do

Make those things the special times in your life
