Walk me, walk me through the valleys of light  
Walk me through the doors  
Doors of open paths of joy  
I surrender to all your good  
Lets win together

Walk me through the valleys of light  
Walk me through the open doors  
Walk me

Lets walk through an endless journey  
A journey filled with ecstasy  
A journey never ending  
Filled with trust and happiness  
Lets walk together

Walk me through the valleys of light  
Walk me through the paths of open doors  
Walk me

Together we stand  
We stand together always  
Always, no matter what  
No matter what happens  
Girl, we stand together

Walk me through the valleys of light  
Walk me through the paths of open doors  
Walk me
