Vocals: Stefanie King Warfield

She turned her head away
He said everything is fine
With a dark and heavy heart
She danced with her head down
danced with her head down
(x1)

If I'm falling in love
Is this how it could be
I don't want us to come down

Black rainbow sky
Lights go live
Hearts in our eyes
All is sweetness and light

(Repeat first x2)

If I'm falling in love
Is this how it could be
I don't want us to come down

I wanna be just like you
Tell all the world leave me behind
Fill this world and make it nice
It's yours to keep tonight
(x1)
