I fell asleep at the wheel again  
I passed out cold  
I woke up in the forest  
Far from the road  
I came across the path of magical animals  
They said, "Boy you're still only sleeping, but while you  
are here... we'll sing"

I fell asleep by the camp fire amused  
I woke up in my own bed confused  
I laid there for awhile to think about it  
Of course it was just a dream but those words were  
true

Keep your head up  
Don't let life get you down  
You know time is not your friend  
So calm yourself down and wipe those cold tears away  
And know that love is real  
It's just a diamond in the mine that you gotta find on  
your own

I think I'll take this whole day  
I'll wander the town  
I'll find the ones with their heads low  
I'll sit them down  
I'll look them straight in the eye and tell them

Keep your head up  
Don't let life get you down  
You know time is not your friend  
So calm yourself down and wipe those cold tears away  
And know that love is real  
It's just a diamond in the mine that you gotta find on  
your own
