sometimes you make me wonder  
how many chances should i give ya  
we go through it till were under  
then the feeling is stronger  
thats how i know i really love ya  
cant smile this way without ya  
and i can't hold it in much longer  
(ooo) you give me fever

it would hurt so bad  
so bad so bad so bad  
if i lose this love i had  
and it would hurt so bad  
so bad so bad so bad  
to know that your the best i ever had

you know its easy to love you again  
then to love someone else  
its easy to love you again  
cuz i know you better then myself  
and when i get this feeling  
i know i mean it  
i can forgive you once again  
when i get this feeling  
i really mean it  
its easy to love you again

how can my heart really be  
if i walk this lonely street  
sure if i go tomorrow  
our souls would surely meet  
hello hello again, hello  
hello hello again, hello

it would hurt so bad  
so bad so bad so bad  
if i lose this love i had  
and it would hurt so bad  
so bad so bad so bad  
to know that your the best i ever had

you know its easy to love you again  
then to love someone else  
its easy to love you again  
cuz i know you better then myself  
and when i get this feeling  
i know i mean it  
i can forgive you once again  
when i get this feeling  
i really mean it  
its really easy to love you again

no one wants to be lonely lonely lonely  
lonely lonely lonely (oh no no)  
cuz i don't wanna (?) just wanna start on you again  
no one wants to be lonely lonely lonely lonely lonely  
(ohhh)

you know its easy to love you again  
then to love someone else  
its easy to love you again  
cuz i know you better then myself  
and when i get this feeling  
i know i mean it  
i can forgive you once again  
when i get this feeling  
i really mean it  
its really easy to love you again (again again)  
easy to fall in love with you again (again)
