Burn if the days of true
The remains all of all we know (despair)
Burn the other side, to the once stop running in

What if we set the scene (the scene)
To break away thoughts in my hands to pieces
Confined to this forever
Come from beyond the other side
It's now breaking through
Spirit side dreams of life

My life, the story has told
My ascending is shipping crowd (crossing)
The fact by the life
Spirit side dreaming
Controlling us

What if we set the scene (the scene)
To break away thoughts in my hands to pieces
Confined to this forever
Come from beyond the other side
It's now breaking through
Spirit side dreams of life

The river is living enough
The spirit side dreaming
Humans inside to his patrol
Controlling the space
Come from beyond the other side
It's now breaking through
Spirit side dreams of life
Come from beyond the other side
It's now breaking through
Spirit side dreams of life
