tear '08 was a hella year, young people better beware
Watch the crime in '09, cuz I smell it all in the air
[President Barack Obama sample] The state of our
economy calls for action, bold and swift And we will
act, not only to create new jobs But to lay a new
foundation for growth On this day, we come to
proclaim an end To the petty grievances and false
promises The recriminations and warn out dogmas
That for far too long have strangled our politics [Trife
Diesel] I'm the brave one like Erica Bane, America's
name Is being tarnished, while honest people is living
in carnage We spend our money on garments, instead
of education We once was the richest nation, now look
at our situation The auto industry begging for a bailout
But who the hell is gonna bail out my brothers outta the
jail house The value of a dollar, nada, white collar
criminals Embezzling tax money from major scholars
Courts litigating, we sit and wait, through all the
drama People still choose to hate over race, look at
Obama The first Black ruler of the free world, we in a
recession Dear God, please bless him, him and his
three girls It's time for a change, look the reign has
come November 4th, we made history, McCain was
done Think twice before you pull out, and name your
guns Let's come together as a whole, and remain as
one [President Barack Obama sample] You know, the
challenges that tomorrow will bring Our the greatest of
our lifetime A new energy to harness, new jobs to be
created New schools to build, the preps to meet,
alliances to repair The road ahead will be long, the
climb will be steep We may not get there in one year, or
even in one term I have never been more hopeful, than
I am tonight That we will get there, I promise you, we as
a people Will get there
