West Side Baby
Performed by T-Bone Walker

I've got a west side baby
She lives way across town

*I've got a west side baby
She lives way across town
And when I'm with my baby
I don't want a soul around

Now she's kind of tall and legged
She's always dressed swell
She sets my soul on fire
When she rang my front door bell

(Repeat *)

Now Monday morning early
Someone bang upon my door
I knew it wasn't my baby
'Cuz she's never knocked before

So I lay in bed and wondered
Who could the caller be
I thought it was insurance man
'Cuz he's been hurting for me

Crazy about my west side baby
She lives way across town
And when I'm with my baby
I don't want a soul around
