Once in my life,
I have a chance to find.2x

Chorus:

once in a lifetime
I have a chance to find
the key to my dreams
(and I know) that it's so good for me.2x

In the beginning,
troubletimes in my life,
I need a (just need a) a shoulder (a shoulder) to cry on
have a direction until I met you
everything 's gonna be alright.
looking on beyond the stars.
searching always wishing
often i thought love
would escape me
You got the key babe

Chorus

I was lost couldn't find my way
you took my hand and chased my blues away
your inspairation has gotten me through
Im feeling brand new
memories of days gone by
hurting always hurting
you've taken my pain away
finally you set me free babe Chorus
