Thanks to charlotte1987@hotmail.com for these lyrics.

On Friday (on Friday)  
Time to party (time to party)  
Let me see you swing and sway  
Tell me are you with me?  
Are you with me (X2)

Friday, payday  
Ready to do the things we love  
We're gonna get out groove on  
All night long  
(Ho Hey) Give it up now for the DJ (Uh huh yeah)  
And put your hands where my eyes can see  
It may be raining but who cares about the weather?  
(Get up)  
Cos when the heat is on we'll all be getting wetter  
(Stand up)  
It's the start of the weekend  
Don't waste no time  
For tonight is your night

On Friday (on Friday)  
Time to party (time to party)  
Let me see you swing and sway  
Tell me are you with me?  
Are you with me (X2)

Everybody's feeling right (Feeling right)  
Cos we know It's party night (Ooh yeah)  
All the ladies looking tight  
Whether silk or satin lace or leather  
Ooh what a sight  
Here's where the party starts things can only get better  
(Get up)  
Just make your way onto to the dance floor get together  
(Stand up)  
It's the start of the weekend don't waste no time  
For tonight is your night

On Friday (on Friday)

Time to party (time to party)  
Let me see you swing and sway  
Tell me are you with me?  
Are you with me (X2)

This party be going on 'till the break of dawn  
Lets give it up (what what) Lets get it on  
Break open a bottle of moet & chandon and when it's  
gone  
We'll star on the Dom Perignon  
This vibes makin' me high  
Like Toi surrounded bye  
Other people movin' their body  
We be kicking mad flava in ya ear  
Big shout to the people round the side  
In the front at the rear  
This is gonna be one hell of a year  
And there's no way that I'm lettin' anyone interfere  
This is how we do getting it on in the venue  
Can you check my microphone 1 2 (Ooh wee)  
Can you give it up now please for the DJ  
Giving uou a party like a Summer Sortay Okay  
Let's see those hands in the air  
And wave them around like you just don't care, come  
on

On Friday (on Friday)  
Time to party (time to party)  
Let me see you swing and sway Tell me are you with  
me? Are you with me (X2)
