Playground "Whisper"

Visit "Whisper" on MotoLyrics.com

Well, They know me as a cat called Whisper

Master thief for most rightful deed
Raise the moon I will come for your sister
The Killer instinct that she gets is new
her soul and leave her just her body, leave her just her body, leave her just

I may take away her soul and leave her just her body, leave her just her body, leave her just, just her body, bod

Speak of me like you do when you whisper
Secretly pass the word around
Everyone knows about the cat called Whisper
N how I came and went without a sound

You heard o'me, the cat called Whisper
Like my ?, had a troubled ?
See, I don't give a damn about your sister, mister
Your world is grey, mine is multi hue
In my world there's everything I need and I go and take it if I want it
I can go and take it when I want it
Like right now

Speak of me like you do when you whisper
Secretly pass the word around
Everyone knows about the cat called Whisper
N how I came and went without a sound

You know me, I'm Whisper
the gentlemen in a margin group
But I can be smooth
My sign is The Trickster
And what do I do to get with attitude
And even if that was all that I could offer you
All I can tell you is a lot more
And that's a whole lotta right
And that's a whole lotta right

Speak of me like you do when you whisper

Secretly pass the word around Everyone knows about the cat called Whisper N how I came and went without a sound
