we're breathing so heavily  
so close to you - that's where i wanna be  
you drown me the way you look at me  
my heart connects to yours so suddenly

so lift me up so this way i can see  
and get lost in your eyes - this comes so easily  
at times i try to remind myself i'm still here  
and not lost in a dream

but how is this not a dream?  
somebody please pinch me  
if i wake up from this sleep promise me that you won't  
leave  
promise me you won't leave...

the loneliness when you're not around -  
i pray for the moment to hold you again  
and your kiss, your lips - i miss the warmth of them  
strive for your smile again  
i can't get away

i'm light on my feet ignoring gravity  
but i must admit i love what you're doing to me

so i fly away from this world 'till everything's out of site  
so let's fly away - you're my world so everything's  
alright  
it's alright...

whoa oh yeah...

i can't get away, i can't get away  
can't get away no i can't get away from tonight  
tonight - it's alright  
no i can't get away, can't get away  
from tonight, tonight - it's alright  
it's alright... it's alright... it's alright... it's alright
