Chemicals burst to gray  
This fire feeding comes to decay  
It casts its path away (and sets itself aflame)  
I'm left with one half  
I'm left with one half less today

Everything (everything)  
Has completely (has completely)  
Indifferently (indifferently)  
Been changing, we're changing yeah  
Show me how we can make this more than ordinary  
Don't look down if you're afraid to fall

Hey angel, we meet again  
This time with wounds to mend  
And now we'll see in truth (define all that we knew)  
You're just an angel with a parachute

Everything (everything)  
Has completely (has completely)  
Indifferently (indifferently)  
Been changing we're changing yeah  
Show me how we can make this more than ordinary  
Don't look down if you're afraid to fall  
Holding out  
Battered hearts are better for the breaking  
Hand-in-hand we fall, we fall  
Head over heels  
And toward the ground we go  
Head over heels  
And toward the ground we go

Show me how we can make this more than ordinary  
Don't look down if you're afraid to fall  
Holding out  
Battered hearts are better for the breaking  
Hand-in-hand we fall, we fall

(You know it's obvious  
Words can't describe you  
But I do love creating combinations  
Of the ones that I know help

I'd sell my heart for the  
Permanent chance to serve your own  
I'd buy you something  
With the money)
