[illegible][illegible]

1. $\{f_i\}_{i \in \mathbb{N}}$ is a sequence of functions $f_i: \mathbb{R} \rightarrow \mathbb{R}$ such that $f_i(x) = x^i$ for all $x \in \mathbb{R}$.
 2. $\{f_i\}_{i \in \mathbb{N}}$ is a sequence of functions $f_i: \mathbb{R} \rightarrow \mathbb{R}$ such that $f_i(x) = x^i$ for all $x \in \mathbb{R}$.
 3. $\{f_i\}_{i \in \mathbb{N}}$ is a sequence of functions $f_i: \mathbb{R} \rightarrow \mathbb{R}$ such that $f_i(x) = x^i$ for all $x \in \mathbb{R}$.
 4. $\{f_i\}_{i \in \mathbb{N}}$ is a sequence of functions $f_i: \mathbb{R} \rightarrow \mathbb{R}$ such that $f_i(x) = x^i$ for all $x \in \mathbb{R}$.
 5. $\{f_i\}_{i \in \mathbb{N}}$ is a sequence of functions $f_i: \mathbb{R} \rightarrow \mathbb{R}$ such that $f_i(x) = x^i$ for all $x \in \mathbb{R}$.
 6. $\{f_i\}_{i \in \mathbb{N}}$ is a sequence of functions $f_i: \mathbb{R} \rightarrow \mathbb{R}$ such that $f_i(x) = x^i$ for all $x \in \mathbb{R}$.
 7. $\{f_i\}_{i \in \mathbb{N}}$ is a sequence of functions $f_i: \mathbb{R} \rightarrow \mathbb{R}$ such that $f_i(x) = x^i$ for all $x \in \mathbb{R}$.
 8. $\{f_i\}_{i \in \mathbb{N}}$ is a sequence of functions $f_i: \mathbb{R} \rightarrow \mathbb{R}$ such that $f_i(x) = x^i$ for all $x \in \mathbb{R}$.
 9. $\{f_i\}_{i \in \mathbb{N}}$ is a sequence of functions $f_i: \mathbb{R} \rightarrow \mathbb{R}$ such that $f_i(x) = x^i$ for all $x \in \mathbb{R}$.
 10. $\{f_i\}_{i \in \mathbb{N}}$ is a sequence of functions $f_i: \mathbb{R} \rightarrow \mathbb{R}$ such that $f_i(x) = x^i$ for all $x \in \mathbb{R}$.
