Leaving this world for another deal
Filling in emptiness with the scream
You laughed when you felt sad

Took place in life using your head
Juggled all music rules and left
So many things unsaid

Stayed what you are on the circus ring
Being the one and being the king

Michael, millions people crying
Walking, walking on the moon
In the whole world
There's no room and there's no peace

Michael, millions people crying
We don't say goodbye, goodbye
And the whole world knows
Michael, you are with us, wow!

He made a mix of uneasy things
Stepping ahead he was going back
Got black and white in one

He was a flame and he was a rain
He was a joy or he was a pain
The man, the sprite, the fun

Stayed what you are in hypocritical mess
Being the one and being the best

Michael, millions people crying
Walking, walking on the moon
In the whole world
There's no room and there's no peace

Michael, millions people crying
We don't say goodbye, goodbye
And the whole world knows
Michael, you are with us, wow!

Michael, you live without you
Unbending and unique, the strongest, never weak
So ever called for more, second to none, oh
Admired by the world, unbreakable for sure
Michael, encore!

Michael, millions people crying
Walking, walking on the moon
In the whole world
There's no room and there's no peace

Michael, millions people crying
We don't say goodbye, goodbye
And the whole world knows
Michael, you are with us

Michael, millions people crying
Walking, walking on the moon
In the whole world
There's no room and there's no peace

Michael, millions people crying
We don't say goodbye, goodbye
And the whole world knows
Michael, you are with us, wow!
