Here we go again, we're all alone  
Just like we usually do  
But you know I'm ready for the next level rain  
I wanna make love to you

Can we make love tonight?  
Girl, let's stop playin' around  
I'm alright if we make love tonight  
It will be the best lovin' you have in your life

Champagne in candle light  
As the music play soft and low  
And as my lips kiss are made  
Baby, there's one thing that I like to know

Can we make love tonight?  
Girl, let's stop playin' around  
I'm, if we make love tonight  
It will be the best lovin' you have in your life

Can we make love tonight?  
Girl, let's stop playin' around  
I'm, if we make love tonight  
It will be the best love you ever make in your life

Can we make love tonight?  
Girl, let's stop playin' around  
I'm, if we make love tonight, tonight
