Oh yeah  
Oh that's right, uh-huh, uh-huh  
Just you, uh-huh that's right  
Uh, uh, come on, yeah

Thought you saw me standing with her in the park  
Can't be cause I was planning to be with you  
To be with you  
You think I'm sneaking but I'm not  
This love I have for you is all I've got  
No matter what you hear  
I need to make it clear  
I wanna be with you, be with you

The only one I wanna touch (You)  
The only one I wanna love (You)  
Tell me that you feel the same  
(Only you)  
I love the way you scream my name  
(You, you)

You heard me say I love you to her on the line  
Not true check your phone  
I was calling you  
I was calling you  
You think I'm cheating but I'm not?  
This thing I have for you is all I want  
No matter what they say  
I know I must convey  
I want to be with you, only you

The only one I wanna touch (You)  
The only one I wanna love (You)  
Tell me that you feel the same  
(Only you)  
I love the way you scream my name  
(You, you)

Tell me what you wanna do?  
Tell me if you think I'm true  
Why would I ho around?

I like the way you put it down  
I love it when you scream my name  
Why you wanna lay the blame?  
Do you wanna be with me?  
Cause you're the only one I need

The only one I wanna touch (You)  
The only one I wanna love (You)  
Tell me that you feel the same  
(Only you)  
I love the way you scream my name  
(You, you)

The only one I wanna touch (You)  
The only one I wanna love (You)  
Tell me that you feel the same  
(Only you)  
I love the way you scream my name  
(You, you)

Tell me what you wanna do?  
Tell me if you think I'm true  
Why would I ho around?  
I like the way you put it down  
I love it when you scream my name  
Why you wanna lay the blame?  
Do you wanna be with me?  
Cause you're the only one I need

Tell me what you wanna do?  
Tell me if you think I'm true  
Why would I ho around?  
I like the way you put it down  
I love it when you scream my name  
Why you wanna lay the blame?  
Do you wanna be with me?  
Cause you're the only one I need

Oh  
What you wanna do?  
Do you think I'm true?  
Oh  
Scream my name  
Lay the blame  
Cause you're the only one I need  
Oh, oh  
You're the only one I need
